**Title: 49 U.S.C. Section 5337 State of Good Repair Program**

**OMB Number: 2132-0577**

Background: 49 U.S.C. Section 5337, the State of Good Repair Grants Program authorizes the Secretary of Transportation to make grants to designated recipients to maintain, replace, and rehabilitate high intensity fixed guideway systems and high intensity motorbus systems in a state of good repair. Projects that are eligible for the State of Good Repair Program funds must be in a recipient's Transit Asset Management plan. Eligible recipients include state and local governmental authorities in urbanized areas with high intensity fixed guideway systems and/or high intensity motorbus systems operating for at least seven years. Projects are funded at 80 percent federal with a 20 percent local match requirement by statute. FTA will apportion funds to designated recipients. The designated recipients will then allocate funds as appropriate to recipients that are public entities in the urbanized areas. FTA can make grants to direct recipients after sub- allocation of funds. Recipients apply for grants electronically, and FTA collects milestone and financial status reports from designated recipients on a quarterly basis. The Competitive Rail Vehicle Replacement Grant (Rail Program) is a discretionary grant program to assist in funding the replacement of rail rolling stock. The Rail Program (49 U.S.C. 5337(f)) a set-aside of the State of Good Repair Formula Grants Program (49 U.S.C. 5337).

The information submitted ensures FTA's compliance with applicable federal laws.
